Salah Bakhit

Al-Rashidi

Civil Engineer and Technical Expert

Civil Engineer - Specialist - First Grade

Civil engineer and government leader with 15+ years of experience. As Safety Department Manager at Kuwait Municipality, Mubarak Al-Kabeer Governorate, I combine engineering expertise with systems development to improve public services. My work spans digital solutions, administrative process automation and practical AI applications, supported by a strong background in programming and web technologies.

EXPERIENCE

2024 - Present

Safety Department Manager

Mubarak Al-Kabeer Governorate - Kuwait Municipality

2021 - 2024

Safety Permits Controller

Farwaniya Governorate - Kuwait Municipality

2018 - 2021

Head of Contractors Section

Engineering Systems Department - Kuwait Municipality

2011 - 2017

Engineer in Projects Development Department

Kuwait Municipality

EXPERTISE

Civil engineering Government administration

Safety & permitting Digital transformation

Systems development

Applied artificial intelligence

CORE SKILLS

- Team and committee leadership
- Interagency coordination
- Process and service improvement
- Problem solving and decision making
- Scientific programme and workshop management
- Conference speaking

LANGUAGES

Arabic Native ●●●●●

English Fluent ●●●●●

EDUCATION

2006 - 2010

Bachelor of Civil Engineering

Teesside University, England

ENGINEERING SKILLS

- Safety and building permits
- Contractor classification and licensing
- Engineering project management
- Design and infrastructure
- Building technology

Leadership & impact

Safety Department Manager · Kuwait Municipality

COMMITTEES & TEAMS

2025 – Present

Head of Programs Committee
at Kuwait Municipality

2024 – Present

Head of Technical Committee for Information
Security and Cybersecurity at Kuwait Municipality

2024 – Present

Head of Government Entities Working
Group for Building Permit Procedures

2024 – Present

Member of Storage Sites Regulations
and Standards Committee

2022 – 2025

Member of Dilapidated and
Abandoned Properties Committee

2020 – 2024

Member of Government Entities Working
Group for Building Permit Procedures

2018 – 2023

Member of Contractors Classification
and Licensing Committee

ACHIEVEMENTS

- Developed Electronic System for the Governorate
- Developed Municipality Transaction Flow System
- Created and Developed Contractors Classification Program
- Improved and Developed Safety and Storage Program
- Member of Municipal Work Development Committees
- Developed Smart Safety Risk Prediction System
- Applied AI Technologies in Project Management
- Automated License Issuance Procedures
- Developed Project Data Analysis System
- Innovated Technical Solutions for Work Efficiency
- Built Strategic Partnerships with Tech Entities

OFFICIAL ENGAGEMENTS

November 2025

Chaired the Scientific Committee of the Third GCC Municipal
Week and oversaw its scientific programme and workshops.

August 2025

Joined Kuwait Municipality's technical delegation to the Fourth
Meeting of the GCC Building Code Committee in Riyadh.

Speaker at RAK Energy Summit 2024 in Ras Al Khaimah, UAE, as
Head of Safety Department at Kuwait Municipality.

September 2024

Discussed building permit procedures with the World Bank
delegation as head of the working group of government entities
concerned with building permits.

“ I strive to develop innovative technical solutions that contribute to improving government services and increasing citizen satisfaction, leveraging the latest technologies to build a more efficient digital future.

Professional & digital skills

Capabilities connecting public-service development with data management, automation and practical technology for engineering and administration.

CORE DIGITAL CAPABILITIES

Digital service development

Business needs analysis · Systems and service interfaces · Systems integration

Process improvement and automation

Transaction workflows · Repetitive task automation · Permit process improvement

Maps and field operations

Interactive maps · Location-linked inspection data · Field operations tracking

Data and documents

Data analysis and reporting · Document processing and text extraction · Print-ready outputs

Applied artificial intelligence

Prompt design and service integration · Processing and translation automation · Output evaluation and review

Quality and user experience

Interface and performance testing · Arabic and English interfaces · Clear and usable digital services

PROFESSIONAL DEVELOPMENT

- Future Managers Preparation Course 2024
- Electronic Governance Course for Kuwait Municipality (September 2023)
- Strategic Administrative Innovation Skills Course
- Public Relations and Corporate Image Building Course
- Intensive Strategic Planning Course
- Contractors Classification Manual Workshop - Oman 2023
- Third Meeting of Gulf Building Code Committee - Riyadh 2024
- Twelfth Gulf Municipal Work Conference - Riyadh 2024
- Construction Conference for General Authority for Palace Affairs 2019
- Contracting Management Course - Al-Inmaa Company 2018
- IOSH Safety Management Course - My Comps Institute 2018
- Advanced AI Applications Course 2023
- AI Technologies in Government Sector Workshop 2024
